

Dive into XCEL's New User Experience

It's here! A new and enhanced digital experience that makes using XCEL faster, easier, and more results-driven than ever!

Engaged Students, With Results

You'll see higher completion rates when your recruits have a clear understanding of what's expected and easily complete courses. That's time and money saved.

- **Intuitive Learning Platform:** Clear navigation and student interface make training content and progress easier to see, so recruits are ready to take their exam sooner.
- **User-Focused Design:** Students can understand their learning experience more easily – course progress, certification status, deadlines and notifications, and more!

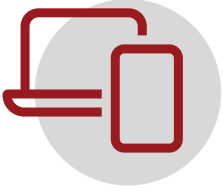

Elevated Efficiency & Reliability

Training administration and management will be more efficient and reliable.

- **Continued Daily Report Emails:** The highly-valued Daily Report Emails won't go away!
- **Effortless Tracking:** With a cleaner, simpler, and more intuitive manager interface for tracking and refining reports to showcase metrics that matter most – when you need it.
- **Stay Current With Confidence:** Students always have access to the most up-to-date, relevant study materials with our supercharged ability to make prompt content updates.

Seamless & Personalized User Experience

Introducing Partner Sites! The process of viewing and purchasing XCEL courses has never been smoother, more transparent, or clearer.

- **One-Stop Shop:** Direct students to use your company purchasing site – no more codes!
- **Personalized Experience:** Enter your Partner Codes (previously known as Discount Codes and entered at checkout) as you land on our website. Or, use your dedicated Partner URL to access your company's Partner Site.
- **More Transparency:** Besides Partner Sites showing your company's products and pricing across the entire site, any applicable state fees and taxes are clearly displayed. Plus, use your Partner Site to login to your Student or Admin portal!

Our new user experience is designed for you & your recruits!

Contact the XCEL team to schedule a demo to learn about these enhancements.
